

Vighnesh Laxman Kadam

Full Stack Developer

vighneshkadam575@gmail.com | 7822073191 | Sangli, Maharashtra, India | LinkedIn | GitHub

SUMMARY

Highly motivated and detail-oriented individual with strong knowledge of **Java, Spring Boot**, Python, SQL, REST APIs, and full-stack development. Experienced in building secure, data-driven applications with database integration, real-time API handling, and analytical problem-solving. Demonstrated strong aptitude and logical reasoning skills by scoring 88.45% in TCS NQT Advanced Aptitude. Eager to contribute to innovative development projects and build scalable enterprise solutions as a **Full-Stack Developer**.

PROFESSIONAL EXPERIENCE [SUMMER INTERNSHIP]

Ultimez Technology, *Web Development and Finance Research Intern*

07/2025 – 08/2025 | Hubballi, Karnataka

- Developed a full-stack CryptoTrack platform for real-time cryptocurrency portfolio tracking.
- Enhanced user insights by building interactive dashboards and real-time analytics.
- Implemented features for real-time price tracking, portfolio analysis, and investment vs. total value visualization.
- Integrated APIs (CryptoCompare/CoinGecko) to fetch live market data and synchronized it with user portfolios.
- Built interactive charts and dashboards using React and Recharts for data-driven insights.
- Worked with Express.js and MongoDB to design backend APIs for transactions, watchlist, and portfolio storage.
- Gained practical experience in full-stack development, API integration, data analysis, and responsive UI design.

PROJECTS

One Token One Product - Blockchain + ML Supply Chain System

03/2026 – 05/2026

- Developed a blockchain-based supply chain application with AI-driven fraud detection for secure product tracking and traceability.
- Built and integrated Machine Learning models using Python, Pandas, and NumPy to detect anomalies and suspicious transactions.
- Implemented fraud detection techniques such as Isolation Forest and Logistic Regression for real-time risk analysis.
- Developed REST APIs and full-stack features using React, Node.js, Express, and MongoDB for seamless system integration.
- Utilized Ethereum and Hardhat smart contracts to ensure secure, transparent, and immutable transaction management.

Aether Finance

01/2026 – 03/2026

- Engineered a personal wealth dashboard utilizing Spring Boot, Spring Data JPA, and MySQL to handle multi-user portfolio tracking.
- Secured user authentication with BCrypt password encoding and implemented user-scoped REST endpoints to maintain strict data privacy.
- Crafted a responsive frontend using Vanilla JS, CSS Grid, and Chart.js, leveraging modern design systems like glassmorphism and backdrop filters.
- Designed database schema migrations with Hibernate ORM to automatically update tables and seed localized Indian Rupee metrics for initial logins.

EDUCATION

Master of Computer Application (Appearing),

2024 – 2026 | Sangli, MH

Chintamanrao Institute of Management Development And Research, Sangli (CIMDR)

CGPA: 8/10 | Sangli, MH

Bachelor of Computer Applications,

2021 – 2024 | Sangli, MH

Chintamanrao Institute of Management Development And Research, Sangli (CIMDR)

CGPA: 7.97/10 | Sangli, MH Coursework: OOP, Web Development, DBMS

TECHNICAL SKILLS

Programming Languages

Python, Java, C++, JavaScript

Frontend Technologies

React.js, HTML5, CSS3, Recharts

Backend Technologies

Node.js, Express.js, REST APIs, Spring Boot

Databases

SQL, MySQL, MongoDB, Vector Database

Tools & Technologies

Git, GitHub, VS Code, Jupyter Notebook, Streamlit, Mongoose

Blockchain

Ethereum, Hardhat, Smart Contracts (Solidity basics)

Core CS

OOP, DSA, DBMS, OS, Computer Networks, ETL, Data Pipelines

TCS NQT SCORE

TCS ION NQT (IT) – Jan 2026

- Overall Score: 75.90%
- Advanced Section: 88.45%
- Reasoning Ability: 525/600
- Programming Language: Python

ACHIEVEMENTS

Participated in Blind Coding Competition

demonstrating strong logical and problem-solving skills.

Technical Head at Deccan Club, CIMDR Sangli

Hackathon Event Coordinator at CIMDR

National Service Scheme(NSS), Volunteer

CERTIFICATIONS

- Python for Absolute Beginners, Udemy 2024

CORE CONCEPTS

- Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
